## ABSTRACT

REQUIREMENTS FOR A SAN JOSE STATE UNIVERSITY ABSTRACT WHOSE TITLE IS LONGER  
THAN ONE LINE, WHICH MEANS THAT IT IS SINGLE SPACED

by Pavel Datsyuk

The abstract should look like this one. It must be indented 0.25 inch and consist of a single paragraph. The maximum length is one page. It can contain no literature citations or figure citations, nor can it contain any statements that would require a citation. Thus one cannot simply leave off the author name and/or date from a statement that would normally require them. The abstract should summarize every aspect of the body of text of the thesis or dissertation. It is common for students to summarize only the introduction, but that is insufficient. Therefore, include the scope and purpose of the investigation, as it appears in the Introduction. The methods should then be summarized, usually in a sentence or two. Important results come next followed by the most substantial conclusions.

## ACKNOWLEDGMENTS

The SJSU Master's Thesis Guidelines are the result of the efforts of many individuals. First, thanks are due to the numerous students of SJSU who have provided input on the information of value to them.
